

A prosperous business of your own with VICTORIABANK

VICTORIABANK continues the program to support the initiative people, wishing to start their own business. Beginning with February 21, in Kishinev will be organized a series of workshops where participants will learn about the steps necessary to start a business and to develop it.

These seminars organized by VICTORIABANK pursue the purpose of informing as many people as possible about the first steps to be taken in starting a business, such as the company registration procedure, drafting a business plan, ways of managing a successful business, the secrets of a successful business and the ways of contracting a loan and calculate the correct management of an efficient business. The President of the Small Business Association having a PhD in Economics, Mr Eugene Roșcovan and other specialists, specially invited to these seminars will answer to all of those questions.

The Conduct of these seminars by VICTORIABANK is a premiere for our country, the subject "How to start a business?" is quite questionable, specially considering that our citizens are not very eager to start a business either because they do not know how to do this or do not have the necessary money to initiate something, or because of lack of information or because they are afraid to do so. As a result of these seminars people will learn more subtle things and shall be more confident of their own ideas.

The seminars will be held in some of the VICTORIABANK subsidiaries from Chisinau after working hours for the convenience of those who will attend. All participants at seminars will receive a free guide containing all the information on how to start your own business. The registration as to seminar participation will be made by phone at the following number 92 92 43, and the operator will keep the candidate informed as to the date and place of the seminar.

In addition to the theme about starting a business of your own during seminars VICTORIABANK will also inform the participants about the possibilities of financial support of a business, about the bank offers which include products with facilities for legal entities, such as loans without collateral and other types of bank loans necessary and convenient for starting a business and for development.

The Project "The first business from the First Bank of Moldova", was launched by VICTORIABANK in the last year's month of November, so that until the end of the year 2007 the seminars were carried out in six district centers (Comrat, Cahul, Ungheni, Balti, Orhei and Nisporeni).
